EVENT PROGRAM QUICK GUIDE

Artwork Deadline May 1, 2026

Event Program Ads are Black & White unless otherwise specified. Print optimized pdf files are recommended. Support graphics should be in Photoshop EPS or TIF formats, High Res JPEG (300dpi or higher) format, InDesign CC, or Illustrator EPS, with ALL type converted to paths, curves or outlines, or print resolution pdf format. If other programs must be used, they should be saved as print optimized pdf or exported as a generic EPS with all type converted to paths, curves or outlines. Word, Publisher & Powerpoint files do not meet print standards and will need to be converted to PDF.

If you are submitting native program files, all fonts and support graphics must be included with your ad file. If your fonts are not included, substitutions will be made at our discretion. All support images, including scans, should be no less than 300 PPI at 100% size. Halftone settings for greyscale artwork: Shadow dots should be set around 93-94%, highlights at 5-6% and midtones should be set a bit light for optimum results from our target presses. Solid screened areas less than 10% are not recommended.

BOOKLET FINAL SIZE: 5.5" x 8.5"
 FULL PAGE AD SIZE: 4.5" x 7.5"
 HALF PAGE AD SIZE: 4.5" x 3.625"
